

## Thru-beam sensor ML29-2P/25/103/143

- Single-beam monitoring with extremely narrow sensor
- Integrated circuit
- Test
- Simple installation - Plug & Play
- Ideal for installation in door profiles or frames
- Dual-beam version master/slave for dual-beam protection of closing edges

Single-beam miniature sensor, ideal for installing in frames or door profiles

### Function

The narrow miniature thru-beam sensors are a small and cost-effective solution, fitting in virtually any door frame. The ML29 and ML30 series offer fast, reliable detection at a distance of up to 8.5 m. The sensors are easy to mount on the profile, either using adhesive strips or a screw. A large opening angle ensures problem-free alignment. Several sensors can be mounted in a cross formation to offer multi-beam protection.

### Dimensions

## Technical Data

### General specifications

Effective detection range	0 ... 5 m
Threshold detection range	7 m
Light source	IRET
Light type	modulated infrared light
Angle of divergence	+/- 8 °
Optical face	lateral
Ambient light limit	40000 Lux

### Functional safety related parameters

MTTF <sub>d</sub>	880 a
Mission Time (T <sub>M</sub> )	20 a
Diagnostic Coverage (DC)	0 %

### Indicators/operating means

Function indicator	LED red in receiver : lights up when receiving the light beam
--------------------	---

### Electrical specifications

Operating voltage	U <sub>B</sub>	11 ... 30 V DC
No-load supply current	I <sub>0</sub>	≤ 35 mA per device

### Input

Test input	Test: emitter deactivation at 0 V
------------	-----------------------------------

### Output

Switching type		light-on
Signal output		1 PNP output, short-circuit protected, reverse polarity protected, open collector
Switching voltage		max. 30 V DC
Switching current		max. 0.1 A
Switching frequency	f	50 Hz
Response time		10 ms

### Conformity

Product standard	EN 60947-5-2
------------------	--------------

### Compliance with standards and directives

Standard conformity	
Standards	EN 61000-6-2, EN 61000-6-3

### Approvals and certificates

CCC approval	CCC approval / marking not required for products rated ≤36 V
--------------	--

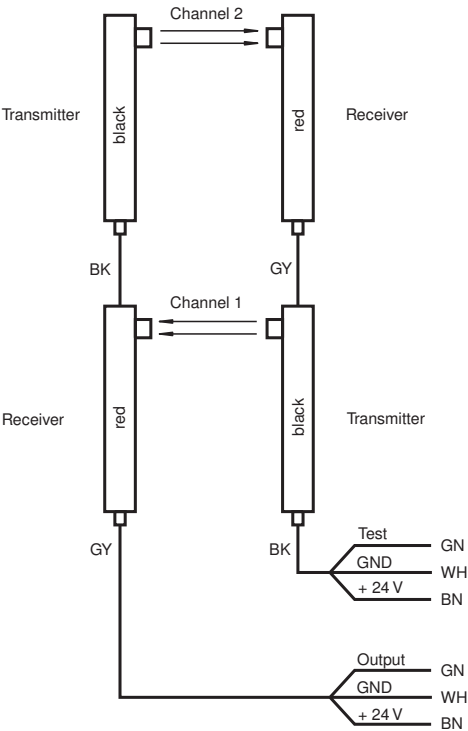

### Ambient conditions

Ambient temperature	-20 ... 60 °C (-4 ... 140 °F)
Storage temperature	-20 ... 75 °C (-4 ... 167 °F)
Relative humidity	90 % , noncondensing

### Mechanical specifications

Degree of protection	IP65
Connection	4-pin plastic connector, 6.5 mm diameter
Material	
Housing	Transmitter: PMMA black / Receiver: red PMMA
Optical face	Plastic pane
Mass	555 g

Connection

Application

Accessories

	<b>ML29 Kupplungsdose 6m 4polig</b>	Female cordset with 6 m cable for ML29 series sensors
	<b>ML29 Front Plate</b>	Front plate for thru-beam sensors in series ML29

Accessories

	<b>ML29 Kupplungsdose 3m 4polig</b>	Female cordset with 3 m cable for ML29 series sensors
---	---	---

Release date: 2020-10-28 Date of issue: 2020-10-28 Filename: 190842\_eng.pdf

## Function Principle

The thru-beam sensor requires a pair of devices for operation, comprising a light transmitter and a light receiver. The emitter and receiver must be arranged in optical alignment with each other. The infrared light from the emitter is detected by the receiver and evaluated.

## Application

- Person detection for automatic doors and gates
- Closing edge protection on sliding and revolving doors
- Threshold monitoring for elevator doors
- Step monitoring for doors on public transport vehicles
- Trigger function for restarting escalators
